

Designed by Drillers, for Drillers

Pull Heads for Utility Contractors

QuickConnect pull heads are engineered to withstand forces in excess of twice the maximum pull force and eliminates in-hole fusing.

With sizes ranging from **4" to 14"**, QuickConnect Pull Heads delivers:

Fast, Secure Connections – Clamshell design keeps interiors clean

No In-Trench Fusion – Save crew time and reduce risk

Versatile Fit – Compatible with IPS and DIPS

Reusable & Durable – Designed to withstand multiple pulls

Bundle Ready – Works seamlessly with QuickConnect Multi-Pipe Pullers

Mini Multi-Pipe Pullers for Utility Contractors

QuickConnect Mini Multi-Pipe Pullers protect your hardware and simplify multiple duct or conduit installations. No need for a bridle sling—just one engineered, hassle-free system built to last.

With sizes ranging from **4" to 14"**, QuickConnect Mini Multi-Pipe Pullers delivers:

Multiple Pulls, One Tool – Configure as many lines as you can fit

Save Time – No custom harnesses, no extra pulls

Keep Crews Safe – Fewer hours in the trench

Durable & Reusable – Engineered to perform across multiple pulls
